# Introducing
Redmine HRM Plugin
Monitor, Balance, Optimize
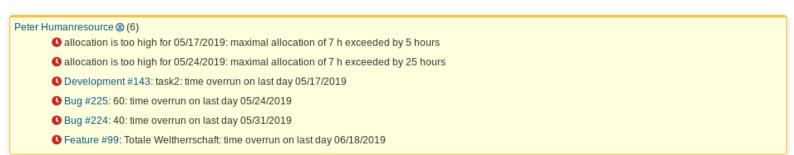

Manage your team's workload and capacity.

Without sufficient working capacity, no project will achieve its goal on time. The **Redmine HRM Plugin** makes it easy to keep track of the project activities of your team members.

Recognize team overload

Negative values for „Available hours" **1**

Symbols & Tooltipp **2**

Work overload **4**

3 Hints & Solutions available.

Troubleshoot problems

The box *Hints / Problems in the resource allocation* lists identified allocation and workload problems of your team you need to solve.

Peter Humanresource (6)
- allocation is too high for 05/17/2019: maximal allocation of 7 h exceeded by 5 hours
